LinkedIn | GitHub | LeetCode

Career Objective

Computer Science undergraduate with experience in full-stack web development, REST API integration, and AI-powered applications. Strong foundation in Data Structures Algorithms with 235+ LeetCode problems solved. Passionate about building scalable software solutions and solving real-world problems.

Education

United College of Engineering & Research, Prayagraj 2023 – Present
B.Tech in Computer Science CGPA: 7.61
St. Anthony's Convent Girls Inter College 2020 – 2022
High School & Intermediate (Science) 84.17% | 69.6%

Technical Skills

Languages: Python, Java, C, JavaScript
Core Computer Science : Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems (DBMS), Operating Systems, Computer Networks
Web Development: HTML5, CSS3, Bootstrap, AngularJS, React, FastAPI, Django, REST APIs
Databases: SQL, MongoDB
Tools: Git, GitHub, Docker
AI/ML: Retrieval-Augmented Generation (RAG), Prompt Engineering

Experience

Frontend Developer Intern | Construction Builder Solution Mar 2026 – May 2026

- Developed responsive **AngularJS interfaces** and improved **user experience** across platform pages.
- Integrated frontend components with backend services using **REST APIs** and **JSON**.
- Collaborated on **UI enhancements**, **debugging**, and **performance optimization**.

Frontend Development Intern | E-Commerce Platform Jan 2026 - Mar 2026

- Built responsive interfaces using **HTML**, **CSS**, **JavaScript**, and **Bootstrap**.
- Developed **reusable UI components** and improved **cross-device compatibility**.
- Assisted with **API integration**, **testing**, and **bug fixing**.

Projects

AI-Powered Code Review Agent | FastAPI,Python, Groq LLM, GitHub REST API | Live Link

- Developed an **AI-powered system** that analyzes **GitHub Pull Request diffs** and generates automated **code review feedback**.
- Designed a **multi-agent workflow** consisting of **Static Analysis**, **Security Review**, **Style Review**, and **Summarization agents**.
- Integrated **GitHub REST APIs** and **diff-only analysis** to improve **review efficiency** and context utilization.

AlertNexa – AI Disaster Management Platform | FastAPI, HTML, CSS, JavaScript | GitHub Link

- Built a **responsive disaster management platform** with a **FastAPI backend** for **JSON-based data delivery**.
- Integrated frontend components with FastAPI-based backend APIs to display disaster alerts and emergency information.

E-Commerce Web Application | Django, JavaScript | Github Link

- Built a full-stack platform with secure authentication and payment gateway integration.
- Developed inventory management and AJAX-based cart functionality.

Achievements

- **Solved 235+ Data Structures and Algorithms problems on LeetCode.**
- **Flipkart GRID 7.0** – Cleared Round 1
- **SIH 2025** – Top 13 out of 90+ teams
- Social Summer of Code 2025 – Ranked 47th out of 350
- Earned Java (Bronze Level) certification on HackerRank
- HackQuest 2025 – Presented AlertNexa project
